Please check one of the following:

Hourly Project Quote

This request is for development at an hourly rate. The hourly rate will be determined based on your specifications. Although you may revise your specifications during the development process, we recommend that you treat this as a final specification and not as a draft, in order to minimize your cost of development.

Milestone Project Quote

This request is for a project based on milestones that you will define below. Changes in specifications (also known as "scope creep") will not be permitted during the design phase of a milestone-based project. Therefore it is crucial that your request be as complete and detailed as possible. Please treat this as a final specification and not as a draft as your project will be contractually limited to the features outlined herein.

Fixed Price Project Quote

This quote request is for a fixed price project. Please be as detailed as possible with your project description. Changes in specifications (also known as "scope creep") will not be permitted during the design phase of a fixed-price project. Therefore it is crucial that your request be as complete and detailed as possible. Please treat this as a final specification and not as a draft as your project will be contractually limited to the features outlined herein.

Software or Website Project Name

Anticipated Launch Date

This request pertains to

A new software or website project
Upgrades or maintenance to an existing project

Target Platform(s) - check all that apply

Windows
Mac
Linux
iOS (iPad)
iOS (iPhone)
Android (tablet)
Android (phone)
Other

Preferred Programming Language(s)

Intended Use and Distribution

Personal trading
Trading within a company (proprietary trading firm / hedge fund)

End User Technical Support
   My organization will handle end user tech support
   Please provide a quote for handling tech support

Will compliance testing be required for the finished product?
   Yes (if yes*, by which organization?)
   No

* Costs associated with compliance testing are <u>not</u> included in any estimate.

Regulation and Legal (check all that apply)

   The product will contain features that are regulated by the US government
   The product will be distributed to embargoed destinations (not permitted)
   The product will include encryption methods that are not permitted by US law

This is an estimate, not a contract to perform work. While Modulus guarantees to keep your contact information and document secret, this document does not constitute any type of non-compete between Modulus and yourself or your organization. You understand that due to the nature of our business, Modulus may have had prior access to similar ideas or methods that you may deem secret.
